

# THE GRINCH STRIKES BACK!

Once again the **Grinch** has decided to wreak havoc on another unsuspecting town. This time the victim is the humble hamlet of Koin Village. When the people of the town least suspected, the **Grinch** came and robbed the town of all of its Christmas spirit and holiday cheer!

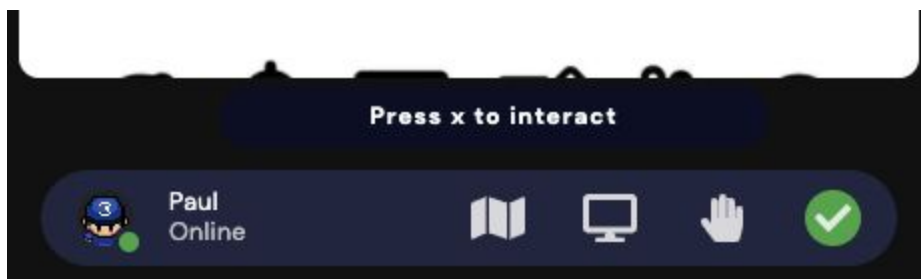

Oh, the horror of his actions! **Who can save Christmas?** Someone must follow his trail of destruction and chaos. Surely, there must be a **hint** in each of the houses that will unlock the way to his secret hideout.

If you are reading this then it is up to you to save Christmas. Investigate the houses, talk to the villagers, solve the puzzles. Find the hints and use them to find the **Grinch** and return to us what is lost. Hurry before it's too late!

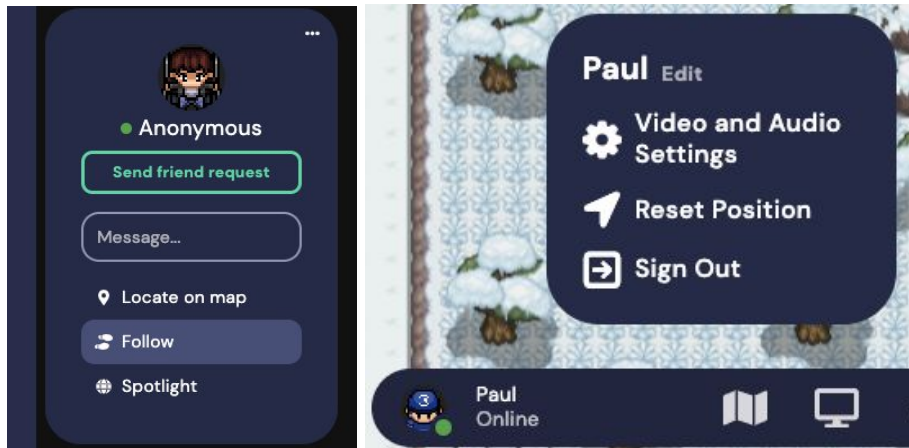

P.S The answer to each room will either be a letter (e.g: A) or a number (e.g:1)

## Gathertown Tips and Tricks

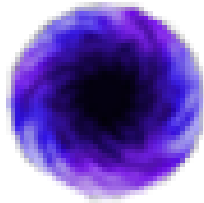

- **INTERACT WITH OBJECTS:** Look for interactive elements - that's how you'll find all the clues! When you get close to one, a menu will pop up at the bottom of your screen showing a preview. Press "X" to see the element in full screen.

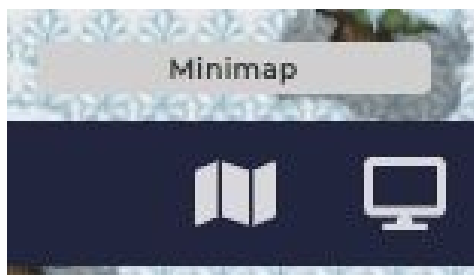

- **FOLLOW PEOPLE:** If you get lost or need to find your team, you can click on someone's profile and click on Follow to automatically route to them. Or if you get stuck you can Respawn back to the start by going into the settings

- **PORTALS:** Keep an eye out for portals! They will transport you to other maps and potential hidden clues.

- **MINIMAP:** Lost? Go to the floating menu at the bottom of the screen. There's a minimap option that will show you your location relative to the rest of the map. You can also press Cmd or Ctr and the + key to zoom in

- **GHOST MODE** 🗑️ : Hold "G" if you need to walk past other users on the map. (unfortunately you can't walk through walls...)
